**Subject:** Final List of SEMS Sites from CERCLIS for Upper Animas area - Request for Document Lists

Hi Dave,

Attached is our revised and final list of SEMS/CERCLIS sites. Can we please obtain an index (list of all electronic site documents) for these 11 sites? 9 are in San Juan County and 2 are in La Plata County. We added one more "yes" (Barkers Park Mill) and took two "yes" sites off our original list that I sent you yesterday (Durango Assay Chemical and Durango Detox mercury spill). We also confirmed the rest of the "?" on yesterday's version as "no".

Could you please confirm you received the attachment and let me know if you have any questions? Also, any idea when we might be able to receive the document lists from you?

Thank you,

Jon Vail

**Subject:** RE: List of Sites in CERCLIS for Upper Animas

Paula,

I have attached a report that contains a list of every SEMS site in the San Juan and La Plata counties of Colorado. Please let me know if you have any questions or if you need additional information added to the report.

**Subject:** List of Sites in CERCLIS for Upper Animas

Dianna – Please respond to all as I will be out of the office next week (May 26-30) and may not be able to respond to email quickly. For the Upper Animas, the remedial program has an IA with USACE and their contractor, CB&I to gather and organize data that has been collected in the Upper Animas watershed as a “prelude” to the scoping of an RI.

Towards that effort, CB&I and the Superfund Records Center need to know all “sites” in CERCLIS that may be applicable to this task to search for data and the supporting documentation (lab reports, QAPPs, Sampling Results Reports, etc.). Can you search CERCLIS for all “sites” in both San Juan County and La Plata County, Colorado? The reason for La Plata County is that we have started sampling downstream of Silverton along the Animas River as far as Durango which is in La Plata County.

If you have any questions on this request and I’m not available, Richard Sisk may be able to assist you. I will be in the office for awhile tomorrow AM (Friday, May 22<sup>nd</sup>). Thank you.
